Professional Summary

*"**Full Stack Developer with 2+ years***' experience in building responsive apps using React, Tailwind, FastAPI, and Django. Skilled in frontend, backend, APIs, cloud deployment, databases, and LLM-based features."*

Technical Skills

- **Programming Languages:** Python, JavaScript
- **Frontend Technologies:** HTML, CSS, Tailwind CSS, React JS (Vite), NextJs(Basics)
- **Backend & Frameworks:** FastAPI, Django, DRF
- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase (Firestore, Auth, OAuth)
- **Data Warehousing & ETL:** Snowflake, DBT, Azure Data Factory (ADF), Azure Blob Storage, AWS S3, IAM
- **Dev Tools & Platforms:** Visual Studio Code (VS Code), PowerPoint, Jupyter Notebook
- **Other:** LLM Integration, JWT Authentication, Redis, Celery, Docker, ML Models

Work Experience

Freelance Full Stack Developer | Remote | April 2024 – Jan 2025
Tech Stack: React JS, Tailwind CSS, FastAPI, Firebase, MongoDB, PostgreSQL, Render, Vercel,
ConvoAI – AI-Powered Chatbot Platform

- Developed **ConvoAI**, a real-time chatbot platform using React, Tailwind, and Firebase Auth (Google, GitHub, Email/Password), with user and chat data stored in Firestore
- Built a FastAPI backend integrated with **Groq API** to serve LLaMA 3 70B model for generating AI responses.

TaskFlow – Productivity & Scrum App

- Built a task management app using **React**, **Redux Toolkit**, and multi-theme UI, with JWT-secured user authentication.
- Developed FastAPI backend with **PostgreSQL** (ORM-based CRUD), deployed on **Render**.

Junior Data Engineer | Hayara IT Services | June 2023 – Mar 2024

- Built **FastAPI APIs** and data pipelines using **DBT**, **Snowflake**, **Rivery**, and **ADF**.
- Analyzed datasets with **Python** and BI tools.
- Integrated **AWS S3** / **Azure** with **Snowflake** via Python.

Blogger | Logic Inventor Technologies | April 2019 – Jan 2020

- Learned and built projects using **HTML**, **CSS**, and **JavaScript**.
- Wrote 10 articles/day and designed visuals in **Photoshop**.
- Increased site traffic from 10 to 200+ daily visitors.

Projects

WeConnect*: Real-time AI chat app using React, Tailwind, Firebase Auth, Firestore, and FastAPI (LLaMA 3).*
[Live Demo](#) – allow 50–60 seconds for backend wake-up (Render free-tier).

DailyTodos*: Task manager with React, Redux, Tailwind, FastAPI (PostgreSQL), JWT Auth, and AI suggestions.*
[Live Demo](#) – backend may take 50–60 seconds to respond.

TailorTalk Booking: *AI-based booking assistant using Streamlit frontend and a FastAPI backend (deployed on Render). Uses LangGraph for flow control and Google Calendar API for booking via account credentials. No LLM—relies on hardcoded string filtering and matching through a single* `/chat` *API.*
[Live App](#) | [Code](#)

Personal Task Tracker: Task management app using React, Vite, Tailwind CSS with multi-user tasks, filters, search, and dark/light mode. Data persists via localStorage.
[Live App](#) | [Code](#)

Artistly: Performing artist booking platform built with **Next.js 15**, **Tailwind CSS**, **ShadCN UI**, and **React Hook Form**. Features artist onboarding, filtering, listing, dynamic profiles, and a manager dashboard. Data managed via **Context API** and stored in localStorage.
[Live App](#) | [Code](#)

• **[Fraud Detection](#)** – 6.3 M+ records, 99.99% accuracy
• **[Sales Dashboard](#)** – E-commerce analytics in Excel
• **[HR Analytics](#)** – Power BI dashboard on attrition

Certifications
• **[DBT Fundamentals (accredible)](#)**
• **[Snowflake Data Warehouse (credly)](#)**
• **[HackerRank](#) –** Python, SQL, CSS, Problem Solving

Education
• M.C.A. - Arunachal University of Studies - 65% (2023-2025)
• B.C.A. – MGKVP – 74% (2020–2023)
• XII – Mahatma JF Public School – 66.8% (2017–2019)
